PRESENTATION

UPDATE REGARDING FISCAL YEAR 2027 STATE OF CONNECTICUT SCHOOL CONSTRUCTION REIMBURSEMENT RATES AND ESTIMATED BUDGET SUMMARY FOR THE PROPOSED NEW WALLINGFORD HIGH SCHOOL

Ms. Bellizzi shared information on the School Construction Reimbursements. In July 2026, the Department of Administrative Services (DAS) released the School Construction Reimbursement Rates for the fiscal year 2027. DAS calculates reimbursement rates annually for school construction grants based on a statutory formula. The reimbursement rate determines the maximum school construction grant amount as a percentage of the total eligible costs of a school construction project. Two different rates are calculated for each school district under the School Construction Grant Program. FY 2027 Rates for General Construction = 56.43%. FY 2027 Rates for New Construction = 52.5%

Ms. Bellizzi reviewed the School Reimbursement rates and 5 different options with the 2027 rates, which included an estimated budget summary for the Proposed New Wallingford High School project. The documents included an estimated total project cost, which included a New High School building, an ASTE building, and land/site costs along with the estimated state and town shares of the cost. Last week, Ms. Bellizzi had a meeting with Senator Paul Cicarella to discuss his help in increasing the reimbursement rate for the district. The town is still in negotiations regarding the acquisition of land. The Agreement will need to be approved by the Town Council. The Board of Education had previously voted to approve Educational Specifications for the One New Wallingford High School which included the addition of a Pool and 17 Dedicated Instructional Classrooms and it resulted in reductions to other spaces, such as faculty workrooms, faculty phone booths and seminar classrooms.
